

2020 REVIEW

The year 2020 kicked off with awesomeness preparing for the medical outreach in Nigeria Ikenne Ogun State. Medical and educational supplies, volunteers, and contacts for the location were all put in place.

The free medical mission took place and the location was Ikenne. Thousands of individuals received free medical care, medication, reading glasses, minor surgery on-site, and we also sponsored Mrs. Juliet who had a reason for her surgery to be done in a private hospital. The counseling section was not left out, as well as distribution of food items too.

UPCOMING EVENTS

- Paint & Sip - June 5th
- Marriage, Family & Relationship - Coming soon
- Internship Program - Coming Soon
- Voice to the voiceless 3
- SAT Prep Classes - July 2 - July 31

Education

Adopt A CHILD

The Adopt A Child project was a scheme designed to help in the educational section of Lagos State Government Schools in Nigeria. One of the challenges that make students keep to themselves is the inability to match with their fellow students as in how presentable they are mostly by their uniform. The school uniform project was one way to combat this and raise the confidence of the school child. One hundred students from selected schools benefitted from this and I could see the joy in their faces.

In bridging the gap of Education with Students and their academics, remote learning became an option. To this effect, Relume Foundation organizes a free SAT Prep class for students. The learning platform was Zoom.

TUTORING SESSION

Making learning easy for the student one-on-one tutoring was initiated by Relume Foundation where a student is connected to a volunteer tutor and guess what it feels like the home lesson. We can boldly say it's increasing every day as we keep getting emails from eager parents requesting their children be registered. Now I think the zoom app was created just for us as they keep making things quite workable.

Also, we lost one of our donors - Dr. Rev. Lionel Croney in 2021. All educational activities (Tutoring and SAT prep in US has been named after him - Dr. Lionel Croney Education Project.
